

Improve your bottom line with MW Security

OPTICAL SAFERS & SHUTTLES

In 1988 MW Security patented its first Optical Safer, followed by its Optical Safer Versatile in 1997. Still today the Versatile Optical unit is the strongest and most sold Optical Safer on the market. The latest model is made for ferrite rods AM/RF. All models fit most spectacles and sunglasses on the market.

About the products

The Safers are made of high quality PC that is resistant, durable and clear. Our products are environmental friendly and fully recyclable, suitable for all retail sectors, excellent in visibility, reusable boxes and adaptable for all EAS systems.
